Objective

To secure a position where I can apply my academic knowledge in computer applications and further develop practical skills in areas like front-end development and data science. With certifications in AI, Python, and hands-on experience from my internship at KPTCL, I am eager to contribute to a dynamic team, continuously learn, and grow within the organization. My goal is to become a valuable asset by consistently enhancing my technical abilities and making a meaningful impact in the field of technology.

Experience

- **Karnataka Power Transmission Corporation Limited (KPTCL)**   Feb 2025 - March 2025
  Web Development Intern
  Front-end Development – Working with HTML, CSS, JavaScript, and frameworks like Bootstrap or React to enhance user experience.

- **Qurio Bytes**   -
  Lead Generation Specialist
  Counseled students and parents regarding educational paths and program structures.

Education

- **RNS First Grade College**   2025
  Bachelors of Computer Application
  CGPA 8.8

Certification

- **Data Science using Python**
  Experienced in handling structured and unstructured datasets, feature engineering, and building machine learning models. Knowledge of exploratory data analysis (EDA), data cleaning, and workflow automation.

- **AI For Beginners - HP**
  Certified by HP for completing a foundational course in artificial intelligence, covering core concepts, tools, and practical applications.

- **Basics of python - Infosys Springboard**
  Proficient in Python basics, including data types, loops, functions, and error handling, with foundational knowledge of object-oriented programming and scripting.

Skills

- **Python Programming**
  Knowledge of Python-based frameworks and tools for statistical analysis and process optimization.

- **Communication Skills**
  The ability of effectively convey, receive, and interpret messages through verbal, non-verbal, and written methods to achieve mutual understanding.

- **Structured Query Language**
  Good knowledge of SQL for retrieving and managing data from relational databases.

- **Fundamentals of Front End Development**
  Skilled in HTML, CSS, and JavaScript, building responsive, accessible, and user-friendly interfaces.

- **MS Excel**
  Proficient in MS Excel for data entry, analysis, formulas, pivot tables, chart creation, and efficient spreadsheet management.

Projects

- **Personal Portfolio Website**
  Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
  Showcased projects, skills, resume, and contact information in a user-friendly layout.

- **YouTube Clone**
  Developed a responsive YouTube clone using HTML, CSS featuring video playback, search functionality, user-friendly interface design and UI/UX design skills
